

Frank Liu

✉ fwliu1@asu.edu | 🏠 fwliu1.github.io | [🌐 Frank Liu](#)

SUMMARY

Passionate, innovative, and self-motivated research scientist at the forefront of Human-Computer Interaction (HCI), specializing in mixed reality, haptics, and educational technologies. Additional expertise in machine learning, physical prototyping, and design thinking, well positioned for technology roles. Proven track record with 10+ peer-reviewed papers in top venues such as CHI, UIST, UBICOMP, and TEI. Successful leadership of cross functional teams and consistently delivering high-quality virtual experiences and products. Adept at merging technical expertise with strong leadership and creative problem-solving to drive advancements in HCI and deliver for stakeholders. Driven by new challenges and desire to be successful in all endeavors.

EDUCATION

Arizona State University, PhD in Computer Engineering Advisor: Robert LiKamWa	Tempe, Arizona, USA 2018 - 2024
University of Washington, BS in Electrical Engineering – with Departmental Honors Advisor: Hanchuan Li, Shwetak Patel	Seattle, Washington, USA 2014 - 2018
Lean Six Sigma Green Belt University of California, Berkeley	Summer 2020
Courses taken: Python and Big Data, Biostatistics	Summer 2016

WORK EXPERIENCE

The Institute for Digital Inclusion Acceleration (IDIA), Tempe, AZ Digital Navigator and Software Manager Shipped Spot the Scammer, a Unity-based iOS app focused on fraud prevention Providing technology education and 1:1 support to diverse age groups in community centers	Summer 2024 – Spring 2025
Komatsu, Tempe, AZ Project Lead, Consultant Lead team of 10, developers, designers, and artists, to create a virtual reality “Pre-operation Inspection” mining experience.	2022-2023
OPPO (InnoPeak Technology), Pal Alto, California Research Intern. Worked on developing state-of-the-art gesture recognition for smartwatch applications	Summer 2022
Mochi Fresh, Tempe, Arizona Independent Consultant. Utilizing DMAIC, I developed workflow optimizations to reduce restaurant variability and waste. Through my contributions, Mochi Fresh nearly doubled revenue and halved drink making times.	Summer 2020
Clobotics, Bellevue, Washington Computer Vision and Machine Learning Research Intern. Shipped an end to end price tag decoding system for price and barcode reading for both android and GCP	Summer 2019
National Taiwan University - IoX Center, Gongguan, Taiwan Research Intern. Mentor: Professor Bing You Award of Excellence: Significant contributions in shipping android application SoberComm, allows alcohol dependent individuals and their family members to monitor alcohol usage.	Summer 2018

SKILLS

Mixed Reality - Unreal, Unity; Programming Languages - Python, Java, C, C++, C#; Machine Learning- Signal Theory, Multi-dimensional Signal Processing, Linear Algebra, Pytorch; Interaction Design; User Research, Adobe Creative Suite

TEACHING EXPERIENCE

Arizona State University	Fall 2023: Teaching Assistant for AME 494: "Spatial Audio for XR" and AME 360 "Designing Mixed-Reality Experiences" Fall 2022, Spring 2023: Co-Instructor for AME551, "Designing Extended-Reality Experiences" Fall 2019: Teaching Assistant for AME 494, "Musical Microprocessors" Spring 2019: Teaching Assistant for AME 394, "Introduction to Mixed Reality"
University of Washington	Fall 2016, Winter 2017, Spring 2018: Grader and Teaching Assistant for EE215, "Introduction to Circuits"
Coding with Kids	Spring 2017, Classroom Instructor Taught coding course curriculum for scratch at local Seattle elementary schools.

HONORS & AWARDS

Convocation Speaker for Spring 2024, Arizona State University

- Valedictorian, among the largest graduating class in ASU's history (nearly 20,700 graduates). Out of the best and brightest from Fulton's 8 schools of engineering, I was chosen by the Dean to be the Spring 2024 convocation speaker.
- Gonfalon holder at graduation ceremony: Selected as flag holder representing the ECEE department.

Dean's Fellowship, Arizona State University

- Awarded to top 4% of admitted graduate students with significant leadership and research capabilities

Peter E. Crouch Excellence Fund, 2020-2021, Arizona State University

Ira A. Fulton Fellowship, 2019-2020, Arizona State University

Herbold Foundation Fellowship, 2019-2020, Arizona State University

Engineering Graduate Fellowship, 2019-2021, Arizona State University

Priscilla and Melvin Wilson Endowed Scholar, University of Washington

IEEE HKN Honors Society, University of Washington

- Scholastic achievement in the top 30% of graduating class

Husky Leadership Certificate, University of Washington

LEADERSHIP

GenAI Student Committee General Chair, 2023-2024	Led an interdisciplinary GenAI Student Committee at ASU, fostering discussions among PhD students to address AI-related concerns and shape university policies, enhancing support for graduate research involving AI tools like GenAI and ChatGPT.
TedXASU Organizing Team, Spring 2019	Event with 1000+ tickets sold. Advised the development for the TedxASU application on android and iOS. Assisted in speaker selection, providing insights to the rest of the organizing team. Served in full capacity for event setup and takedown
Sunhacks Organizing Team, Fall 2018	Lead marketing campaigns selling out tickets for 300+ participants. Organized the largest hackathon in Phoenix Area; Sunhacks, ASU's 36-hour hackathon.

Advanced Robotics at the University of Washington, Spring 2017 – Summer 2018	Annotated meetings and weekly sprints coordinating 90 members, Raised over 18,000 in funding through philanthropy efforts and sponsorships, Refiller Robot Lead; Designed and conducted CAD reviews; wrote embedded software (C, C++, Arduino) for robot control systems Summer 2018 Placed 3rd in International Regionals Summer 2017 Placed 31st out of 241 at International DJI Robomasters competition in Shenzhen, China

RESEARCH FUNDING

Principal Investigator, VR Clubs of America

Project Description: VR Club addresses the challenge of inadequately equipped classrooms and low-resource schools by pioneering virtual and augmented reality science labs. We empower students to cocreate their own science educations, developing technology literacy and reinforcing science concepts. We envision educators using the experiences that the students have built in the classroom to empower other students learning. Through these virtual labs, students can conduct experiments, visualize intricate concepts, and engage in interactive learning, all without physical apparatus limitations.

Funding Amount: \$2,500 Awarded, 2023 ASU Changemaker Community Action Grant
\$10,000 Awarded, ASU Foundation
\$3,000 Awarded, NSF I-Corps Hub: Desert and Pacific Region
\$1,000 Awarded, Venture Devil's Demo Day 2024
\$2,000 Awarded, YWCA - Equity in STEAM 4.0 Grant 2024

Mentor, VR Brain, won by Micaela Leong

Project Description: The "VR Brain" project tackles the challenge of limited student exposure to real brains until medical school and the spatial constraints of traditional textbook images. Utilizing Virtual Reality (VR) technology, the initiative provides students with an immersive, three-dimensional experience, addressing the shortcomings of conventional methods. VR Brain aims to bridge the knowledge gap, allowing students to explore and understand the complexities of the brain's structure.

Funding Amount: \$1,500 Awarded, 2023-2024 ASU Athletics Research Grant

PATENTS

US 12,069,453: **Method and Apparatus for Time-Domain Crosstalk Cancellation in Spatial Audio!**

Frank Wencheng Liu, Robert LiKamWa

US 11,462,128: **Method and Apparatus for Simulated Hydrodynamics in Mixed – Reality Fluid Vessels**

Robert LiKamWa, Shahabedin Sagheb, Alireza Bahremand, Byron Lahey, **Frank Wencheng Liu**, Assegid Kidane

SELECTED PEER-REVIEWED PUBLICATIONS

INVITED TALKS

September 2024	Virtual Frontiers: Where Mixed Reality (VR & AR) Meets Artificial Intelligence Venture Cafe
July 2024	Design, and Experience: Creating compelling virtual experiences! Design+Summer Camp at ShenZhen University
July 2024	Speaker Panel: "The Student Experience in Canvas: An ASU Student Panel" InstructureCon
March 2024	Keynote Speaker Panel: "Student Perspective on the Future of Education" Future of Learning Community Fest at ASU
December 2023	Speaker panel: "Exploring Generative AI in Education Through a Student Lens" Empowering Learners in AI Conference
October 2023	VR Club – Teaching VR in Highschools and Developing the Next Generation of Learners Presented for EdPlus at ASU
April 2023	A Stem Education You can Feel: Bringing Chemistry, Fluids, and Haptics into VR Learning Doctoral Academic Salon hosted by CCNU
April 2022	A metaverse you can feel, building haptics for mixed reality ASU's Digital Culture Speaker Series
Spring 2018	From my exemplary leadership and service on campus, I was personally invited by Michael Bragg, Dean of the College of Engineering at UW, as a speaker for the 2017-2018 Scholar-Donor Recognition Luncheon.

SERVICE

Volunteer	Hotmobile 2022, Poster and Demo Student Organizer TEI 2019
Mentor	Summer 2019, Advanced Robotics at the University of Washington Summer 2019, Hacklodge Seattle
Member	2017 – 2018, The College of Engineering Student Advisory Council at University of Washington Interviewed students and faculty about mental health on campus and prepared a recommendation report to improve student well-being on campus.
